

AFTER DARK ACTIVITY

Ever wonder what goes on after dark in the great outdoors? Vision Walks, a licensed NSW national parks and wildlife service operator, has established new nightly adventures in the World Heritage-listed Nightcap National Park and the Whian Whian state conservation area, located near Lismore. Guests can don a pair of night-vision goggles and set off to observe the behaviour of nocturnal animals in an ecologically friendly, non-invasive way. If you're not a night owl, try a daytime guided adventure instead, where you can learn all about the region's natural and cultural history. For more information visit www.visionwalks.com.
